

## Plastic Injection Insert Mold Making for Spare Parts

### Basic Info

Model NO.: Plastic Injection Molding ABIS23

Runner: Hot Runner

Design Software: UG

Installation: Fixed

Certification: ISO

Standard: DME

Customized: Customized

Product Shaping Mode: Plastic Injection Molding ABIS23

Mould Base: Lkm, Dme, Hasco etc ;

Steel Hardness: 20-60HRC

Treatment: Pre-Harden, Nitride, Heat Treatment, Quenching

Mould Life: 50K - 1 Million Cycles Product

Design Software: Ug, CAD, PRO-E, Solid Works etc

Quality: ISO9001:2000 Certified

Payment: T/T, Western Union , Money Gram

Trademark: ABIS Mold

Transport Package: Crate/Pallet

Specification: 1000T double injection

Origin: China

HS Code: 8480719090

ABIS Mold was founded in 1996. With many years of development, it has grown up to an enterprise providing a full "turn key" services to the customers, starting with product design, prototype parts making, mold design, mold making and molding production, automotive checking fixture etc. Moreover, we are specialized in plastic injection mold designing and manufacturing.

ABIS Mold builds a wide variety of Plastic Injection Molds, ranging in size from small M. U. D. Inserts to molds of 15 tons; Single cavity to multiple cavity; Proto-type to high production class 101; Standard runner/gates to hot manifolds with valve gates.

We provide molds and products to customers from a diverse range of industries including Automotive, Household electrical appliances, Electronics, Medical, Packaging, Telecommunications and Industrial tools.

ABIS Mold is a full service Plastic Injection Molding manufacturer in custom manufacturing. With our experienced tool makers and setters we can achieve optimum product output in a minimum of time. Your product is molded to your specifications and put through our quality inspection department to guarantee accuracy and quality at all times.
