

Basic Info

Model NO.: ABIS08080805

Certification: ISO

Standard: DME

Customized: Customized

Material: PC/PP/PBT/ABS/PMMA/PU/PE/PVC/etc.

Core &Cavity Steel: P20/H13//GS2344/Nak80/Assab718h/Assab8407/etc.

Gate Type: Sprue Gate/Pin Point Gate/Edge Gate/Submarine Gate

Standard Parts: Dme/Hasco/Daido/Misumi/etc.

Trademark: ABIS

Transport Package: Wooden Box

Specification: CE/SGS/RoSH

Origin:Shenzhen

HS Code: 8480710090

Professional Plastic Injection Mould Manufacturer with about 22 years experience, specializing in Plastic Injection Mould with Cold&Hot Runner/Gas Assistant Mould/High Glossy Mould/2K Injection Mould/IML/Stack Mould.

Advantage:

1. Specialize in Automotive mold/household mold/daily used product mold about 10 years.
2. High quality & competitive price & professional skills.
3. In house strict quality control.
4. Fast and on time delivery.
- 5 .All molds could be produced automatically

Offered Service:

1. Mold progress report and tooling schedule will be provided weekly.
2. The first testing sample for buyer's inspection and work out improvement requirements will be provided.

3. Mold testing video, 2D part drawing and 3D mold design before shipment will be provided.

Specification:

Item: Plastic Injection Mold

Part Material: PC/PP/PBT/ABS/PMMA/PU/PE/PVC

Core & Cavity Steel: P20/H13//GS2344/NAK80/ASSAB718H/ASSAB8407

Mold Base Steel: P20/1050/S50C/

Runner: Hot or Cold

Gate Type: Sprue Gate/Pin Point Gate/Edge Gate/Submarine Gate/Fan Gate/Ring Gate

Cavity No: Single or Multiple.

Mold Base Standard: DME/LKM/HASCO/Etc.

Spare Parts Standard: DME/HASCO/DAIDO/MISUMI/ETC.

Mold Life: 30k-1,000 k

Cycle Time: 10-120 s

Lead Time: 30-45 days

Injection Machine: 50-1200 Ton

FAQ:

1. Q: Which kind of product can you do?

A: Plastic injection molding and mass production for plastic parts.

2. Q: Which kind information need for quotation?

A: 1) Sample photo with size or 2D/3D design

2) Product material

3) The quantity

4) Runner type, cold or hot

5) Mould steel type, P20, 718, 2738, H13, S136, 2316, and so on.

3. Q: I have no 3D drawing, how should I start the new project?

A: You can supply us a sample or tell me your idea, we will help to finish the 3D drawing design.

4. Q: How long will be the injection mold finished?

A: Usually it will take about one month to finish the mold.

5. Q: How about the samples?

A: After mold finished, We will make some samples for you to check as soon as we finish the mold and then deliver the samples for you to check.

6. Q: How about the mould modify?

A: You can tell us your comment about the samples after you receive them.If there is any dimension different from the drawing,we will modify the mold for free in our side and then make the new samples.

7. Q: How about the proprietary rights of the plastic injection mold?

A: Customer paid the mould so it all belong to Customer.
